## Biography

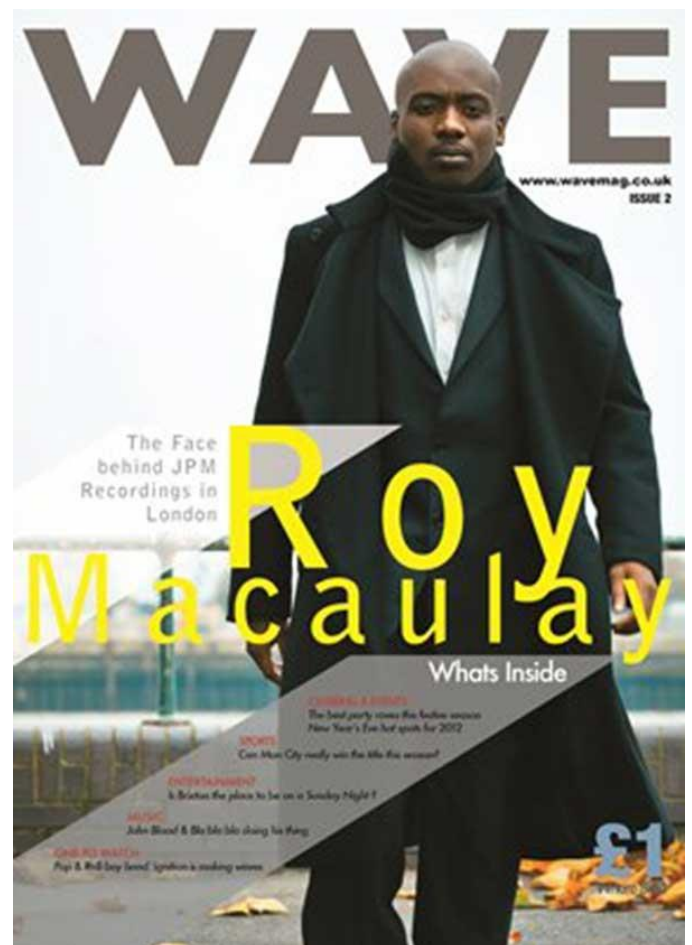

Darkjoint first appeared within the UK Hip Hop scene in 1999 with the Malarchi hit single 'No Question' which charted in the UK Pop chart at number 37 and the UK Hip Hop chart at no 6. He went on to produce the follow up single by Malarchi entitle 'U 4 Days' which also entered the UK Pop chart at 38 in the summer of 2000.

The bond and chemistry between Darkjoint and Malarchi produced the hit album by Malarchi entitled 'Forgotten World' which also contain the underground Hip Hop chart hit 'Da Shock' feature the legendary US rapper Canibus the following year in 2001.

On completing the 'Forgotten World' album by Malarchi in 2000, Darkjoint immediately started working on the follow up album in the story time line with his debut album 'The Forgotten Ones' which produced the single 'Still Love You' featuring Serocee and Emanuel the singer. The album featured various MCs in the UK Hip Hop scene of that era and the album was completed a decade later in 2010.

Due to record label ramblings and legalities the album was put on hold and could not be released until now. It has taken awhile but the album will be release later this year on JPM Recordings.
